Our Growth

Start

2014 Built Team Krishna

A team of volunteers to compete for the Global Learning Xprize, an organisation with philanthropists like Elon Musk, Ratan Tata, and James Cameron on its board. The goal was to build software that helps less privileged children learn to read, write, and communicate. Ended up in the top 20 out of 198 global teams, setting the base for Krishworks.

2015 Krishworks Technology Innovations

was founded to build IOT prototypes, full-scale solutions, and SaaS software. (APAC)

2015-2016 Research and development of Gurukul software

A team of 30+ volunteers across India helped with research and development of Gurukul software - as part of Xprize submission. The software supported English and Swahili language, with deployments intended for Tanzania.

2017 Upskilling and empowering rural teachers

School onboarding starts: To help kids in rural areas read, write, and communicate in English by upskilling rural teachers and empowering them with technology.

2017-2018 Seeded by

Seeded by: Sigma Accelerators, IIM Calcutta Innovation Park, Indian School of Business, DLabs

2021 New office in Bangalore

2022 Expanding to the global market (EMEA, North America, Australia)

**2023 New office in Kolkatta, Microsoft Azure Startup**

2024 GCP ISV Partner

Google Cloud

Solution Offerings
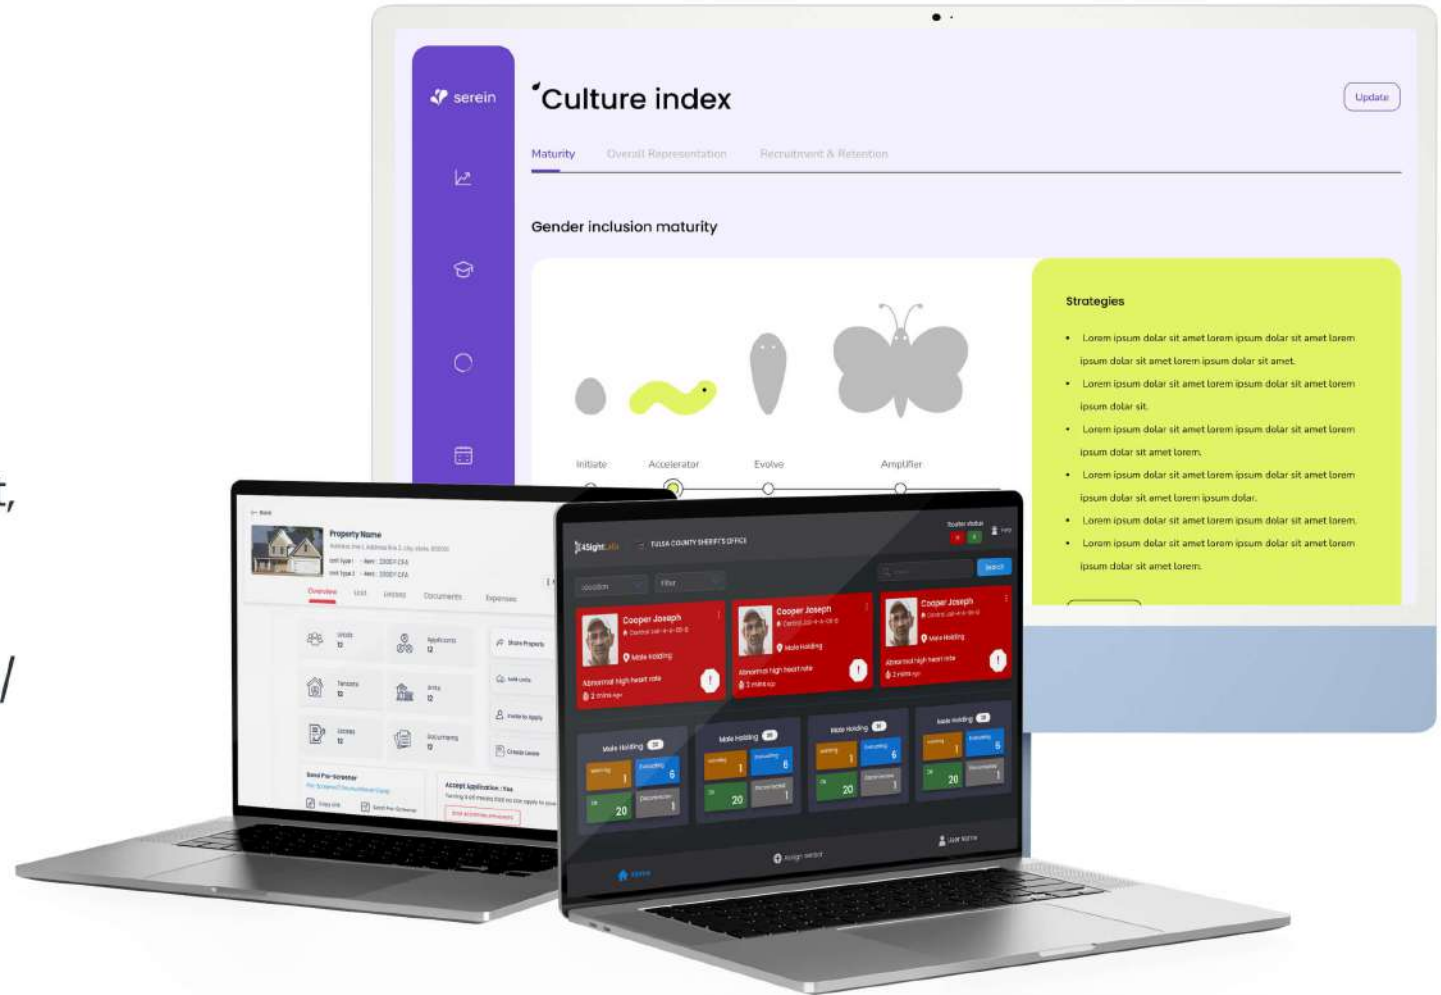

Application Development
**IoT Development**
Rapid Prototyping

Web Software

- Full Stack Development
- Frontend and Backend
- ReactJs, CSS, JavaScript, Nodejs, Django
- We expertise in API Integrations, REST API, UI/ UX Designs, QA

Mobile App

- Android and iOS Apps

- Native and Hybrid App Development

- UI/UX Designing, Cross-Platform Apps, QA, API Integrations.

- Flutter, Java, Kotlin, Swift, React Native

Solution Offerings
LMS

- Elearning Application for Corporates, Schools, Colleges etc.

- Assessment and Progress Tracking Solutions, AI Powered Learning Solutions

- Integrates with SCORM files.

- Quizzes, Online tests, Content Uploading, Online Class etc.

- Gamification in Education

The Sexual Harassment of Women at Workplace (Prevention, Prohibition, Redressal), Act 2013

Solution Offerings

Custom ERP Development

- ERP Integration (ZOHO CRM, ERP Next)
- Cloud ERP Solutions
- Point Of Sales
- Inventory Management
- HRMS
- Warehouse Management
- Fleet Management
- User Management

Solution Offerings
CRM

- CRM-(Lead Management, Partner Management, Inventory Management, Customer Management

- Custom CRM Solutions, Sales Automation Software

- Sales Pipeline Tracking, Analytics and Reporting Tools

- Realtime Collaboration features

- CRM for Real Estate Builders, ECommerce, Sales and Marketing, Healthcare, Automotive etc.
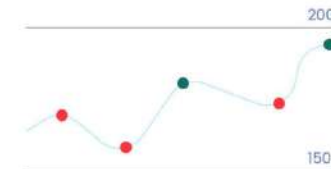

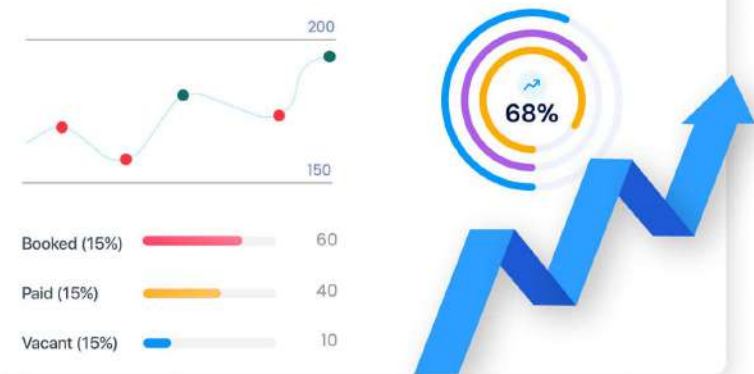

Solution Offerings

IoT

- Wearable Monitoring devices with Sensor Networks for real-time tracking and insights.

- Prototype Design/Assembly, Embedded/IoT Software Development

- ESP32 (WiFi MESH, OTA), MQTT, Arduino, BLE, Firmware, LoRaWAN.

- Our IoT Devices: Smart HandCuffs called Custody Protect, Smart Pumps (Water leakage detection), Face Recognition Smart Watch, Smart Home for Econet Solutions.
